RETRACTABLE FALL ARREST BLOCKS

USP-19000(20)

RETRIEVAL FALL ARREST BLOCK

Features

UFS Protects has developed a range of retractable fall arrest blocks with an integrated rescue retrieval function that allows a person (after a fall) to be lifted up or down in a controlled manner; this eliminates the need for the rescuer to descend to the person and reduces the amount of time involved to carry out the rescue.

Certification

Compliance to : EN 360:2002

Specification :

- Ergonomic Carry Handle for ease of transportation
- Locking Pin to engage and release Fall Arrest and Rescue mode
- Integrated manual rescue mode function (hoisting and descending)
- Automatic Retractable Block
- Hydro Seepage System to allow water to be drained from block
- 4.5 mm galvanized steel cable for added strength and safety
- The snout reduces the locking of the cable when it is suddenly released
- Temperature Range: -30 to +50°C

TECHNICAL SNAPSHOT

Part code	Material of casing	Material and Dia of lifeline	Breaking Strength	Attachment End	Anchorage End	Compliance to	Weight(kgs)	
		Galvanized Steel Wire Rope of dia 4.5 mm.	For more Query Contact Us 15kN	It comes with various options of UFS hooks to choose from as per the requirements.		Anchorage Eye with swivel action	EN 360:2002	9.4 kg
